The Linux Foundation	June 2017 to Sept 2017
SynApps	June 2016 to Sept 2016
ProKarma	June 2015 to Sept 2015
Intel	June 2013 to Sept 2013
Prokarma	June 2012 to Sept 2012
Empire Pacific	June 2011 to Nov 2011
SynApps	June 2010 to July 2010

Jun 2017 to Sept 2017	The Linux Foundation Remote (Portland, OR)
----------------------------------	--

Summary:

Worked with software engineering team to help build an internal web service. My task was to help the team ensure the project was as secure as possible by researching security best practices for Docker and AWS, and documenting and informing based on what was found.

Jun 2016 to Sep 2016	SynApps Portland, OR
---------------------------------	--------------------------------

Summary:

Worked with development team to create an application in C# that tested whether IP speakers could successfully be communicated with over a network. Tests included unicast/multicast audio streaming and various xml commands over http, udp and tcp. Designed and helped develop a front end using WPF for the application.

Jun 2015 to Sep 2015	Prokarma Denver, CO
---------------------------------	-------------------------------

Summary:

Worked with designers and developers to create a microsite highlighting the companies UI/UX designing abilities. Used media queries, css animations, and jquery to make the website compatible with all possible devices. Also worked with Angular JS to create a movie app using the imdb API.

Jun 2013 to Sep 2013	Intel Hillsboro, OR
---------------------------------	-------------------------------

Summary:

Worked with the software group to set up a server using xampp to host analytical graphs made using HTML5 and Javascript.

Jun 2012 to Sep 2012	Prokarma Beaverton, OR
---------------------------------	----------------------------------

Summary:

Created an animated video using Adobe Flash to be used to recruit new employees. Worked with the design team to outline the concept and then build out the script. Researched best method for web animations between Flash and HTML. Used the Wacom digital pad for artwork and Adobe Flash for animation. Final product available to view upon request.

Jun 2011 to Nov 2011	Empire Pacific Lake Oswego, OR
---------------------------------	--

Summary:

Worked with the managing director to create and update marketing procures for each segment of their business. Used Adobe InDesign to create the final booklet of advertisements. Final product brochures are available to view upon request.

**Jun 2010
to July 2010**

SynApps
Portland, OR

Summary:

Worked with SynApps CTO to created designs for characters in SynApp advertisement, ultimately using Adobe Flash to create animations for website. Final project available to view upon request.
